EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jacqueline M. Nicol on May 23, 2006.

The application has been amended as follows:

Claims 55-56 have been canceled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to a method of making an anode of an electrochemical cell in a vacuum chamber including providing a reactive gaseous material adjacent to the lithium deposition nozzle. The prior art, such as Brodd, clearly teaches that the gaseous atmosphere is non-reactive to the lithium metal. See column 7, lines 28-30.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
